

March 23, 2013

to whom it may concern,

I'm a 48 year old blind man here in Port Huron, Michigan.

I'm on Social Security, a fixed income.

I'm writing to you to say that I support the FAIR TAX, H.R. 25. It's a national sales tax that will be collected at the state level, because the states already collect sales taxes. H.R. 25 gets rid of the following taxes, thankfully:

A. The federal personal income tax.

B. The federal corporate income tax.

C. The Social Security Pay-roll tax.

D. The AMT.

E. The gift tax.

F. The inheritance tax.

It also gets rid of the IRS., which will save billions of dollars, because we will get rid of 1 huge government agency!

I know that one of the obstacles to passing it is the argument that it'll hurt the poor. Well, I'm \*POOR\* here, on a fixed income due to my blindness.

I would love to pay the 23% national sales tax, at least I'd be doing my fair share, and no longer would any American have to pay the taxes I mentioned above! Working people will finally be able to keep all of their pay checks!

People will be able to start businesses and not have to pay income taxes, and other taxes they now have to pay. They will only have to pay the national sales tax. Business owners will be able to hire millions of workers, because they'll have money to pay them with, compared to the income tax, (flat tax or the current system), which takes away income to be able to hire workers.

Also, people will not be taxed for giving money to someone, and they will give money away in droves. Where they are now taxed, so instead, they don't give money because of the current gift tax.

Besides, those who are at the poverty level or below in income will get a monthly rebate as a result of paying the FAIRTAX. And to tell you the truth, I won't even want the prebate, I just look forward to paying the national sales tax! Now when have you ever heard of any American who is excited about paying a tax? Well, you have now, I look forward to it!

So, go ahead and let's scrap the current tax code, and then get the FAIRTAX on the books.

take care and God bless,

Sincerely,

Harry Brown, [REDACTED]
