The Honorable Mike Thompson
United States House of Representatives
231 Cannon House Office Building
Washington, DC 20515

Dear Congressmen Brady and Thompson:

Recently the PTC extension was added and approved by congress. This PTC was supposed to be a compromise over the 6 year extension asked for by wind. This new wording in fact costs us more--MUCH MORE.

Recently I attended a meeting in Orangeville NY. Invenenergy Wind LLC. made the statement they intend to JUST START projects all over the country just to get PTC money. Invenenergy went on to say they had more than 30 projects with many more planned all across the country to take advantage of the PTC. The project that was supposed to be up and running in months in Orangeville will be delayed except for a minimal construction start to get their share of the PTC. The new plan is to finish construction 2 years AFTER the start. This is totally unacceptable. This will now exceed the original 12 billion dollars of handouts for energy projects that do not work. No power, no jobs and no future.

PTC extensions need to be stopped and stopped now. Please allow the PTC to expire at the end of 2013 and do not allow it to be added ever again to any tax extenders should Congress consider them any time this year.

Thank you

Paul Jensen
