

Dear Sir or Madam:

I am writing today to urge support for HR4404.

My husband and I own a logging business in Wisconsin. We employ 15 people year round. I was made aware of this bill recently, and wanted to write to say that our business would benefit from the duty free treatment of log forwarders. The duty free status will reduce the cost of purchase on a forwarder, thus helping our business to reduce expenses. In these difficult economic times, that is very important to the success, and even the survival of small businesses like ours.

Thank you for your consideration.

Sincerely,

*Debby Blomberg,
