

**Description of Changes in the
Chairman's Amendment in the Nature of a Substitute to H.R. 3920
(Green Sheet)**

The Chairman's Amendment in the nature of a complete substitute makes three changes to H.R. 3920:

- (1) In sec.1, it changes the name of the bill from "The Trade and Globalization Act of 2007" to the "The Trade and Globalization Assistance Act of 2007";
- (2) In sec. 111, it adds a provision authorizing workers certified under an industry-wide determination to start training before they are laid off; and
- (3) In sec. 401, it eliminates the provision in the current bill allowing the Secretary of the Treasury to issue regulations providing for the separation of the ownership of a qualified tax credit bond and the entitlement to the credit with respect to such bond.
