The Honorable Charles  
Rangel

House Ways and Means Committee  
Chairman

The Honorable Dave  
Camp

House Ways and Means Committee Ranking Member

Dear Representative

On behalf of the 500,000 Concerned Women for America (CWA) members nationwide, we would like to express our support for the Cantor amendment to the House health care reform bill concerning a limitation on abortion funding.

We recognize that without specific limitations on abortion funding, the language in the health care reform bill will be interpreted to include the allocation of taxpayer funds for abortions. Many Americans do not want their hard-earned money to provide for abortion on demand.

Our members are deeply concerned with the notion that health care reform would result in government forcing taxpayers to pay for the eradication of innocent, unborn lives. We appreciate the initiative of Representative Cantor, and we strongly express our support for the language put forth in the amendment.

Sincerely,

Wendy Wright  
President
