Pryce Statement on Thomas Manufacturing Jobs Plan

WASHINGTON, DC – House Republican Conference Chairman Deborah Pryce (R-OH) today issued the following statement supporting a comprehensive initiative introduced today by Ways and Means Chairman Bill Thomas regarding FSC/ETI:

“Chairman Thomas has taken a complex international issue and offered a solution that strikes at the heart of the problem – more help for America’s manufacturing sector. The plan he introduced today is a welcome measure that will go a long way toward rejuvenating the Rust Belt and getting American manufacturing back on its feet.

“The House Leadership will continue to work closely with Chairman Thomas and other colleagues to bring this plan to the House floor as quickly as possible.”
