- A. Is the tariff relief specified in this Miscellaneous Tariff Bill available to any entity that imports and pays duties pursuant to this tariff heading? If not, why?

The tariff relief that HR 2813 provides is broadly available to benefit all U.S. dairy producers throughout the country. It provides relief from harmful discrepancies that exist between tariffs for milk protein concentrate, casein and caseinates and those for other milk powder products such as nonfat dry milk/skim milk powder. This benefit is conveyed broadly to the dairy farmer community in the U.S.

Please list the name and contact information for any known entities currently importing under the tariff heading specified in the Miscellaneous Tariff Bill:

Information is not known

- B. Does the tariff relief specified in this Miscellaneous Tariff Bill benefit downstream producers, manufacturers, purchasers, and consumers?

As stated above, the tariff relief that H.R. 2813 would provide would benefit U.S. dairy producers. It would also help to encourage greater manufacturing in the U.S. of milk protein concentrate, casein and caseinates by setting the tariff treatment for these products at more appropriate levels. Finally, consumers would be afforded expanded opportunities for greater consumption of domestic products which are of the highest safety and quality.

Part III: Financial Benefit Certification

I hereby certify that neither myself nor my spouse has a financial interest in any entity named in Part II.A above.
