

June 22, 2012

I oppose the proposed reduction in tariffs on imported bags. As a U.S. Manufacturing Company employing hundreds of U.S. citizens this bill will hurt our current domestic business. This tariff will only support China. U.S. made products are going to be affected across the country. This is not a solution. The U.S. Government should be assisting U.S. Manufacturing Companies not hurting them and making it more difficult to sell a domestically made product. Please help stop this tariff!

Thank you,

Tracie Castillo
