The Honorable Dave Camp
Chairman
Committee on Ways and Means
United States House of Representatives
Ways and Means Committee Office
1102 Longworth House Office Building
Washington, DC 20510

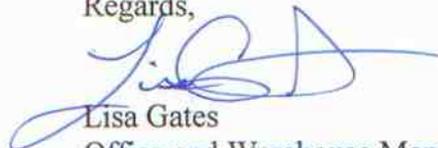

Dear Congressman Camp:

I am writing in support of the duty suspension bill for ski poles and accessories thereof (H.R. 5104), and to encourage Congress to move forward with a miscellaneous tariff bill.

Camaro USA LLC is the sales and distribution office in the United States. Our facility in Austria manufactures our Komperdell ski poles and accessories that we distribute throughout the US. We provide 4 full-time jobs and 12 out-side sales representatives in the United States. My company is a member of SnowSports Industries America (SIA), which represents the interests of the winter sports industry. We are grateful that the House Ways and Means Committee has provided us the opportunity to submit comments on H.R.. 5104. Because there is no U.S. production of the ski poles and accessories covered by the bill, no domestic opposition to the bill is expected or warranted.

It is important to me and my company that Congress passes a miscellaneous tariff bill that includes a duty suspension for ski poles and accessories. Please free to contact me or David Ingemie, President, SIA (703-506-4225), if you have any questions or concerns.

Regards,

Lisa Gates
Office and Warehouse Manager
