Dear Ways and Means

Jagger Brothers makes yarn from combed wool BUT any suspension of Duty on Wool yarns entering the country hurts the overall Wool Industry. I suggest this could be aimed at Faribault Mills in Minnesota or maybe some of the hat and glove knitters. All this suspension will do is reduce the chance to make the yarn in USA.

Jagger Brothers would like to have a chance to make this yarn on the worsted system and the Duty Suspension will only make the Woolen yarn less expensive and less likely to entertain worsted yarn as a possible alternative. We are against the suspension of Duty in HB 5699.

Respectfully, Scott @ Jagger Brothers Inc
