

Hon. David Camp

Ways and Means Committee

Washington, D. C.

Subject: The Fair Tax

Dear Mr. Camp:

I hope you and committee members will objectively and without political party and personal ambition seriously consider and adopt The Fair Tax - to put in place a simple and effective tax process that will garner a litney of benefits for individuals, corporations, and our government.

If you and the committee objectively read and study The Fair Tax you will come to the only conclusion that makes sense: Phase out the existing untenable plan and replace it with the very simple and yes "fair" plan.

If your committee only keeps the existing plan with more tweaks then you have failed. You have not represented the will of the people. Taxation without representation will not stand.

At some point , maybe not in my lifetime, there will be a change. My hope is that it is done by representatives of the people and not by force by the people.

Thank you for your hard work and consideration.
