RE: Hearing on Certain Expiring Tax Provisions

I would like to respectfully urge Congress to extend the wind energy production tax credit (PTC) as quickly as possible and not wait to extend the credit until just before or after it expires.

The PTC drives billions of dollars in private investment in homegrown American wind power each year. Wind farms revitalize communities – bringing in construction jobs at first, and maintenance jobs in the long term, and generating revenue for our community schools and hospitals over the lifetime of the project. Increasing the amount of power that our country gets from clean, homegrown, affordable resources is an excellent thing for us to do – and this tax credit provides an incentive for the wind industry to continue to do just that.

Please take up an extension of the wind energy production tax credit right away.

Thanks,
