May 1, 2020

The Honorable Alex M. Azar II
Secretary
U.S. Department of Health & Human Services
200 Independent Avenue, SW
Washington, DC 20201

Dear Secretary Azar:

As Chairs of House Committees with legislative and oversight jurisdiction over programs administered by the Department of Health and Human Services, we write in strong opposition to the finalization of the rule misleadingly entitled, “Nondiscrimination in Health and Health Education Programs or Activities.”¹ Despite its name, this rule is discriminatory and would remove many health care programs and activities from protections provided under the Affordable Care Act’s nondiscrimination requirements. It would also overturn core protections for LGBTQ+ people and other marginalized communities. At a time when the United States is grappling with the 2019 coronavirus (COVID-19) pandemic and access to health care services is so critical, we are disappointed that this Administration is once again taking steps to limit access to health care and embolden discrimination against some of the most vulnerable among us.

If finalized, this dangerous rule would open the door to discrimination against patients in express contradiction to the plain language and intent of the law, and would therefore be illegal.² Undermining protections for marginalized individuals at any time is unacceptable, but it is particularly egregious to do so during the worst global pandemic in over a century. Right now, the federal government should be working to ensure that all patients are able to access essential health care—including COVID-19 testing and treatment—but instead this rule would embolden discrimination and harm many people, including LGBTQ+ patients, women, individuals with limited English proficiency, and individuals with disabilities.³

On February 29, 2020, Vice President Mike Pence stated that responding to COVID-19 was “an all-hands-on-deck effort.”⁴ Yet, in spite of the ongoing threat posed by COVID-19, this

Administration has prioritized finalizing this harmful final rule, which was transmitted to the Office of Management and Budget on April 23, 2020 for final regulatory review.\(^5\)

This rule poses an increased nationwide threat and may potentially force some patients to choose between facing discrimination or seeking necessary health care services in the midst of a pandemic. Moreover, this rule would inflict far-reaching and significant harm upon patients who have historically experienced discrimination in health care settings.

For the foregoing reasons, we strongly urge the Department not to finalize this rule and instead focus critical resources on responding to the COVID-19 pandemic.

Thank you for your immediate attention to this matter.

Sincerely,

Frank Pallone, Jr.
Chairman
Committee on Energy and Commerce
U.S. House of Representatives

Richard E. Neal
Chairman
Committee on Ways and Means
U.S. House of Representatives

Robert C. “Bobby” Scott
Chairman
Committee on Education and Labor
U.S. House of Representatives

Carolyn B. Maloney
Chairwoman
Committee on Oversight and Reform
U.S. House of Representatives
