

Oversight of the Biden-Harris Administration: 3 Key Moments

BIDEN FAMILY BUSINESS DEALINGS

- Two IRS Whistleblowers directly involved in the Hunter Biden tax evasion case presented evidence of how the Biden-Harris Justice Department obstructed the investigation by:
 - Delaying IRS Investigators from taking needed steps in their investigation, including shielding Joe Biden when investigators wanted to ask about him;
 - Divulging key information about the investigation to Hunter Biden's attorneys; and
 - Denying search warrants and approval to bring charges — multiple times.

Key Committee Action:

- **Held 4 executive sessions** to release thousands of pages of evidence highlighting the preferential treatment the Biden's received and showing Hunter Biden lied under oath to Congress;
- **Filed a brief** in federal court that helped collapse Hunter Biden's sweetheart plea deal, leading to Hunter eventually pleading guilty to 9 charges including 3 felonies; and
- **Published a 291-page report** detailing extensive evidence uncovered during the investigation.

ANTISEMITISM ON COLLEGE CAMPUSES

- Investigated the explosion of antisemitism at the nation's top universities and exposed:
 - Weak university leadership that failed to protect students or enforce campus policies and laws;
 - Radical faculty who participated in and emboldened students to join antisemitic activity; and
 - Foreign influence that helped fuel discriminatory activity on campus.
- The Committee has also demanded the revocation of the tax-exempt status of 9 nonprofits that funded unlawful activities on campuses and in cities, including supporting terrorism.

Key Committee Action:

- **Advanced 4 bills** focused on University Accountability, support for American Students, penalties for civil rights violations, and removal of tax-exempt status of nonprofits supporting terrorism;
- **Held 6 hearings** to address concerns about the tax-exempt sector; and
- **Sent 39 letters** to universities and the Biden-Harris Admin demanding they act against use of tax-exempt funds to conduct illegal activity, promote antisemitism, and support terrorism.

THEFT OF CONFIDENTIAL TAXPAYER INFORMATION

- Uncovered the need for new deterrents after thousands of Americans had their tax information stolen, including that of President Trump's by an IRS contractor.

Key Committee Action:

- **Passed H.R. 8292**, The Taxpayer Data Protection Act in the U.S. House to double penalties for those who steal taxpayer information;
- **Successfully urged a federal court** to sentence the IRS contractor to the maximum penalty; and
- **Pushed the Biden-Harris IRS** to secure taxpayer data immediately and demanded accountability for the failures that led to this unprecedented breach of taxpayer trust.
